Summer 1 Week 3

KEEPING IN TOUCH

Sapphire Class News

CHILDREN: Hello all, we hope you are all looking forward to another week of learning!

Everyone seems to have settled into the new routines of home learning, and most people we have spoken to seem to be coping very well with the 'new normal' although are looking forward coming back to school to see their friends again. You are all so adaptable. We have been enjoying the extra time with our families, although the rain this week has made it more tricky to get out and exercise, but hopefully next week will be drier and we'll be able to continue enjoying time outside (remembering of course to social distance from other people). We hope you are managing to keep in touch with each other, but just remember to be careful when online and using social media; tell your parents if you see anything that makes you uncomfortable or you think isn't quite right.

We love to hear what you have all been up to so remember to keep the photos and video clips coming in; it's great to see all you have accomplished as well as your smiley faces which we miss so much! We've seen some great examples of carpentry this week and fund raising for charity. Great job!

PARENTS: Thank you for all you are doing to support the children with their learning. Attached is this week's timetable; as always, use it as it best suits your family situation. *Please remember to consider e-safety when children are working online.*

You will notice that Thursday is themed to coincide with the national celebrations for the 75th anniversary of VE Day and Friday is a bank holiday. The ambition is to try and recreate the community element of our school by engaging all children in similar themed tasks and activities. Obviously for some people celebrating VE day on Thursday will not work, so please adapt to suit your needs, but it would be lovely for all children to recognize this anniversary in some way. Please do continue to share what your children are doing at home with us at school. Even if you don't want pictures published on the website we really enjoy seeing what they are doing and the experiences they are having, so please do email the office, who will forward these on to us. We really are missing your child.

You will also notice that the maths work will now be put on the school website and the timetable will indicate which worksheets to use each day. You also may have heard about BBC BiteSize doing daily lessons on their website-these are great but keep in mind that they do not follow our sequence of learning but can be used if you feel your child requires additional work.

Please encourage the child to keep reading, it's so important for a whole host of reasons. You can check the level of most reading books via Accelerated Reading Book Finder. Every child should have their reading zone recorded in their homework diaries.

We hope you enjoy the short working week and the bank holiday weekend - in a socially distanced manner of course!

Learning This Week

English: Poetry, comprehension, similes and metaphors

Maths: decimals - adding whole numbers and decimals, sequencing decimals

RE: Pentecost topic

Science: Changes in materials unit

Foundation

DT:

Computing: Coding

History: VE day

Birthdays This Week:

9th May - Charlotte

Have a great day!

	Monday

11 – 11:30	
11:30 – 12:30	
12:30 – 1:30pm	LUNCH BREAK
1:30- 2pm	
2 – 3pm	
3 – 3:30pm	

	Friday - Bank Holiday VE Day
	Enjoy the long weekend—hopefully the sun will shine!

Additional Ideas for Topic Work

SCIENCE 2 WEEKS—Properties and Changes of Materials

- What happens when you heat each of the following? Raw egg, chocolate, ice, cake batter, butter. Can you reverse the change?
- Oxidation - can you devise an experiment to see what makes a metal nail rust? You will need a few non-galvanised nails (be careful if they are sharp). Put one nail in a pot in air, one submerged in water, one partly submerged. Record how they change over time, 1 hour, 2 hours, 24 hours, 48 hours.
- What happens when you mix together vinegar and bicarbonate of soda, lemon juice and bicarbonate of soda, washing powder and lemon juice, water and paint, effervescent tablet and water. Make notes about what happens and decide if you are observing a reversible or irreversible change.

Learners, Believers, Friends

Mission Statement

To be a community of **learners, believers** and **friends** rooted in the values and teachings of the Gospel. We seek to enable every individual to develop to his or her full potential in the knowledge that they are uniquely created and loved by God.
