## Summer 2 Week 4 June 22<sup>nd</sup>

KEEPING IN TOUCH

## Year Two News

Dear Children and Parents,

It is remarkable to think you have done yet another week of school work at home with your parents. All of the work you are sending to the email is fantastic. We are so proud of all our Year 2 children.

Here is an outline of the work you will be doing this week:

### English

This week we are going to continue to use the talk for writing unit called 'Rainbows, Rainbows, Everywhere'. Your main piece of writing this week will be to write about rainbows and their importance during this current time, what they represent and what you know about them. You can include illustrations in your piece of work. We have included a more detailed outline for daily Literacy tasks. You will find it on the website.

Remember to read what you have learned about rainbows and use the information in the text to help you. Please also include your own understanding of what rainbows represent at this present time. If you have made or designed a rainbow since being off school you could include this information. Maybe you could tell us what you used to make or draw one. Use the work that you have been doing throughout the week to help you.

Make sure you try your very best for your writing task. We look at them carefully each week. We want it to be your neatest handwriting. Make sure you are including capital letters and full stops. Look at the questions and sentence starters on page 17 to help you! When you have finished your piece of writing, self/peer assess using the success criteria and send to the email below. If you have not sent any work yet it would be nice to see some.

### Maths

In maths we will be looking at measuring. You will explore measuring length, comparing length, the four operations we use and finally comparing mass.

On Friday we have added a maths investigation -Please look at the activity on the website – we would like you to explore length using cubes or lego bricks. This investigation gets you to explore other areas of Maths you have done this year such as multiplication and fractions.

Other curriculum areas can be found by following the links on the timetable.

If you have any problems please contact us on the email below.

Have a good week!

Miss Nolan & Miss Ward

### Additional Ideas to Support Topic Work: Special People

**Pick a well-known author or your favourite author!**

**Research them and do one of the following activities:**

- **Poster**
- **Portrait**
- **Fact file**
- **Write a letter to them telling them what you have learned**
- **Tell them about your favourite book of theirs and why**

**If you can, send a photo, or scan your work and email it to the Yr2 Home learning!**
