

CARDINAL NEWMAN CATHOLIC PRIMARY SCHOOL - AUTUMN TERM 2022

We are delighted to announce that Code Camp will be returning to Cardinal Newman Catholic Primary School next term!

Whether coding is new, or an identified passion, Code Camp will let your child unleash their creativity in a fun, collaborative and supportive environment. We have reimagined our coding program - weekly challenges, functions, algorithms, branching, variables, game logic, physics and maths! An 11 week program with a new project each week, and the fun doesn't have to stop after class; your child will be provided with their very own Code Camp World account which they can use to continue creating at home and to share their projects with family and friends.

[Code Camp](#) is now a global movement, having taught over 100,000 children how to code in the past 8 years. We focus on problem-solving, creating apps and improving computational thinking in a fun and engaging way, so your child will be ready to take on the digital world of the future.

Key details:
