

"Our vision is to sustain the Italian culture in the new generation by inspiring children to live bilingualism as a lifestyle"

Our classes at Lingua4Kids are conducted by teachers with native-level proficiency in Italian which is focused on interaction between teacher and students.

We develop our student's speaking skills and pronunciation and consolidate their knowledge of grammar through engaging lessons with lots of speaking opportunities, rather than a 'one-way' tutorial style.

Accademia Italiana

We aim to help your child to communicate better in Italian. At Lingua4Kids, many different teaching methods are used to boost your child's confidence and build up positive attitudes towards language learning.

Il Trenino

The Il Trenino playgroup is aimed for all children age 2 to age 5 years including Reception children. Our main focus will be teaching the language through playing and to familiarise with Italian phonics and expressions.

'We're so grateful to have a fantastic Italian school for our 4 and 7-year-old daughters. The lessons include lots of fun activities, role play, games, songs, and references to the Italian culture. The lessons are very well prepared, and the teachers are very encouraging and supportive. Both our daughters have made great progress. Grazie!'

Tony & Tiziana

'Brilliant Italian class where my 5 year old daughters learn through so many activities, singing and dancing which makes the class fun and exciting. Highly recommend this class for those who want to introduce Italian to their children.'

Josie

'Jennifer has launched a remarkable programme into the local community for the first time which people have been talking about for many years. She drives forward the Accademia with passion as she truly believes "a language is a gift for life" and how beautiful will it be when these kids visit their roots and can have a conversation with the relatives!'

Rosario

'This has been one of the best set ups we could have had for our children. The teachers are professional but at the same time warm with the students. They are very creative and each class fun, which helps the students stay interested and engaged.'

'They provide appropriate material for the lessons which again encourage and promote learning.'

Ivan & Maria

'Un respiro d'aria fresca per la comunità Italiana! Una scuola d'italiano con insegnanti di madre lingua molto preparate.'

Paolo
