

We are very excited to announce that for the very first time, Code Camp will be running a 3 day coding camp at Cardinal Newman Catholic Primary School during the summer holidays!

Whether coding is new, or an identified passion, Code Camp will let your child unleash their creativity in a fun, collaborative and supportive environment. All attendees will build their own app, learn foundational coding principles and have ongoing access to the Code Camp World platform to keep coding long after the camp has concluded.

3 day camp

Wednesday 14th - Friday 16th August 2019

8:30am - 4pm

Spark camp for beginners - intermediate

Suitable for ages 7-12

£229 per child

www.codecamp.co.uk

Special offer for the Cardinal Newman community:

****Early Bird price £199 - use code EARLYBIRD_CN until midnight Sunday 30th June****

Code Camp is now a global movement, having taught over 50,000 children how to code in the past 5 years. We focus on problem-solving, creating apps and improving computational thinking in a fun and engaging way, so your child will be ready to take on the digital world of the future.
