

Cardinal Newman School Hall Extension Project

What are we doing?

- Larger hall by extending forward towards Arch Road
- Moveable partition to make 2 separate spaces for PE/ Drama etc
- Toilet block at field side of the hall
- Kitchenette and toilet area connected to the hall
- Climbing wall
- Larger school storage space
- Moving the bike shed

Why - Benefits for our children

- Bigger space for whole school events – parents can join in
- The ability to divide a larger hall into 2 separate spaces for PE, Drama etc
- More children can eat together at lunchtime
- Hall available for use by our classes for longer in the day

Why - Benefits to the school

- Easier school timetabling
- More space allowing lunches in one sitting rather than two
- capacity for parents to join more events – currently no room for parents if whole school in the hall
- Kitchenette and toilet areas connected to hall for after school use
- enable letting of field and hall especially if toilets are available and hall is closed off from rest of the school
- An income stream increase to fund more school facilities
- Improve the look of front of school

When

- Building works over next summer holidays
- Ready for use in Autumn Term 2020

How? – We need some help

- Total cost approx. £500,000
 - Majority covered by the MAT
 - We are also applying for CIL Grant (Community Infrastructure Levy)
 - **Governors Fund** must provide **10%**

We will be promoting the governors fund again and would be very happy to talk to any parents who are able to contribute

Please have a look at the drawings and give us your feedback or ask questions....

.....Thank you for listening
