2018

Many thanks to those who have spoken to me about our pilot projects this term – the arrangements for relaxed entry and for parents' evenings. Relaxed entry appears to have been broadly popular with many parents enjoying the children having direct entry to the KS1 classrooms and appreciating the resulting quicker start to active learning which is taking place. Some concerns were raised initially around increased concentration of traffic in Arch Road due to the children all coming in at the same time, but this appears to have settled down now and is at least no worse than usual!

Feedback about parents' evening arrangements has been mixed, with some appreciating the opportunity for earlier slots in the school day but others finding the limited number of later slots challenging to balance with work commitments. We are keen to enable all parents to have the chance to engage with their children's learning and thus will look at increasing the number of later slots for future occasions. We will continue to monitor both pilot projects and will let you know how the arrangements will evolve for future terms.

As you may be aware, last weekend, there were intruders in the school grounds late on Friday night and the police were called. Although the intruders got onto the roof of the school, it appears that nothing was taken on this occasion. However the contents of the bike sheds, including scooters and bikes, were strewn across the playground and local gardens. The bike shed is locked overnight, but it appears that those who are determined can still get in. Following these events, we are suggesting that families no longer leave bikes or scooters on the school premises overnight.

Earlier on Saturday night, there was a very successful Quiz Night organised by the Parents' Association. This was a very enjoyable evening and also raised £482 for the school. The Parents' Association has been very supportive of the development of the school's resources and has agreed to fund two class sets of LearnPads" (like school iPads) and two sets of BeeBots (programmable robot toys) to support our children's learning in Computing. Last year's PA project (funding water saving taps and cisterns for the children's toilets) has also resulted in a good saving for the school in terms of water costs, meaning that there is a little more slack in the school budget to spend money directly on children's learning, rather than on water bills! Our huge thanks to the Parents' Association for all their efforts to support our school and our children.

Finally, on Monday this week our newly-formed Prayer Council presented their plans for their new role. Children from the Prayer Council wrote the assembly and presented it themselves, explaining to the school that they are volunteers who want to help to develop the school's prayer life and bring all children closer to Jesus. They read the Gospel story of Jesus telling the disciples:

"Let the little children come to me and do not stop them, for it is to such as these that the Kingdom of God belongs."

The Prayer Council hopes to help all children in our school to enjoy God's creation all around them and their first plan is to refresh our Prayer Garden with bulbs and bird-feeders, ready for the children to use at lunchtimes in the spring and summer. We can all look forward to those brighter springtime days ahead! All best wishes for the weekend, Catherine Burnham
