## Summer 2 Week 6

KEEPING IN TOUCH

### YEAR 4

Dear Year 4,

Thank you all for partaking in our Virtual Sports Day! How amazing to see you all taking part and having fun whilst trying your very best. This past week was also very special as we had the chance to catch up with you and see your wonderful smiles once more, something we have dearly missed.

#### English

This week you will continue working through your Talk for Writing booklet: The Impossibly Possible Bookshop and by the end of the week you will write your very own magical story. What we would like you to focus on whilst writing your story, is the inclusion of wonderful words. You have been given some example of WOW words in the booklet on page 11; how many of these could you include in your writing? This piece of writing will be part of your Year 4 portfolio and we therefore ask for you to copy it out once edited, in your neatest handwriting on the template attached. Pop it together with your 'Summer of HOPE prayer' and your self-portrait. As soon as we can, we will collect them from you and include them in your file ready for your move to Year 5!

#### Maths

This week you will be looking at angles, triangles and quadrilaterals. For Friday's challenge see how many triangles can you make on a pegboard?

<https://nrich.maths.org/2852/index>. For those of you who want more of a visual challenge try Baravelle <https://nrich.maths.org/6522>. Let us know how you get on!

#### Science

A chance for you to find out lots of different body facts. You could take it further by finding out interesting measurements from other members of your family. Who has the widest arm span in your family? Who has the widest hand span? Is the oldest person in your family the tallest? Why not combine your maths skills to your science investigation by plotting your findings on a data graph chart?

Please carry on sending in photos and scans of your work to the Year 4 email address. Any urgent queries should be sent to the office.
